About Beau

Beau Bailey is a 15-year-old singer-songwriter currently based in Sussex, England, with strong creative roots in Texas.

Her music brings together British pop, young Texan country soul and emotionally honest storytelling.

Beau's love of performance began early through piano, dance, drama, vocal training and creative writing.

After her family moved to The Woodlands, Houston, she joined Sarah Kelly Music School, where her poetry, singing and storytelling came together, and her songwriting began.

Over the past three years, Beau has written a growing catalogue of original songs, recorded several into scratch demos through Sarah Kelly Music School and released her first single, Pieces of Me, on streaming platforms. Her second single, Feel It, is due for release in August 2026, following her second recording trip to Nashville.
